Recent Bachelor of Engineering graduate with a strong foundation in programming languages and technical skills. Eager to contribute to an organisation's success by applying my skills and practical experience in computer science.

Projects

AI Voice Assistant for Blind People (07/2024 - 04/2025)

- Developed an innovative system to enhance accessibility for visually impaired users, utilising Android OS APIs (Work Manager/Alarm Manager) for task management and SQLite for local data storage of medication schedules and user history.
- Integrated AI object detection for real-time obstacle identification and voice feedback, alongside GPS navigation for location tracking and emergency sharing.

Training and Experience

Qspider Hadapsar (Java Full Stack)
Jan 2025 – Present

Codsoft (Web development Intern)
Sep 2024 – Oct 2024

Technical Skills

- **Languages:** Java, Python, C++, SQL, HTML, CSS, JavaScript

- **Tools & Technologies:** GitHub, MS-Office, VS Code, MySQL Workbench, Jupyter Notebook.

- **OS**: Microsoft Windows, Linux Ubuntu, Mac OS.
